

THE BLUES SOCCER ACADEMY

The Blues Soccer Academy gives players the chance to learn and work on four very important aspects of the game of soccer. Our Coaching staff will work in small groups to personally know, train, and grow each student into a better soccer player. Each Session is geared to the individual players age and skill level. **These classes are open to anyone wanting to improve their soccer skills.** We are offering Four different schools:

1: Striker School - is geared to the players that are looking to learn the correct way of striking a soccer ball and scoring more goals. They will learn what it takes to be a finisher and the techniques on how to do it consistently.

2: Goalkeeper School - is geared to the players that are serious about being a goalkeeper. Being a goalkeeper is a very specialized position and with our coaches you will learn what it takes to be a great keeper. How to protect yourself, how to work the game, and most importantly how to stop the ball from going into the goal.

3: Footskills School - is geared to the players that want to be able to control the ball with every touch. This is not just to teach you moves on how to get by a defender but how to handle the ball, control it and move it from one end of the field to the other.

4: Raw Talent Strength & Conditioning School - is geared to the players that want or need to get faster and stronger. With specific training and exercises working on lower body strength, upper body strength, and overall fitness. This is an in your face hard working session.
